CROCKET'S
SPRING FLOWERING
BULBS

FALL 1928

RODERICK M. CROCKET & CO., Inc.
Bulb Importers

100 UNION AVE., N.
CRANFORD, N. J.

A MARVELOUS SPRING DISPLAY may be yours if you will plant the following Bulbs this fall in your Rock Garden:

Winter Aconite, Crocus Sieberi, Snowdrops, Crocus Sativus, Crocus Large flowered varieties: Scilla Siberica Blue and White, Chionodoxa, Grape Hyacinths, Blue and White: Tulip Duc van Thol, Tulip Kaufmaniana, Tulip Clusiana, Tulip Marjoletta, Tulip Persica, Fritillaria Meleagris, Feathered Hyacinths, Scilla Campanulata, Star of Bethlehem.

A good rule to remember when planting most Bulbs is to set them three times deeper than their own size. The Lilium Candidum is an exception to this. It should be set just below the surface.

Terms of Business: All goods are offered subject to being unsold on receipt of order. Prices frequently change as the season progresses and we are sometimes obliged to change them without notice.

We request that orders from parties hitherto unknown to us should be accompanied by cash or satisfactory references.

Claims must be made upon receipt of goods so that if the mistake is ours, adjustment may be made promptly.

SPECIAL CASH OFFER

We will give a discount of 5% on all orders for Bulbs of \$5.00 or over when accompanied by cash.

ORDER EARLY

We anticipate a tremendous demand for bulbs this fall so it is imperative that orders should be placed early.

GARDEN LECTURES

We give interesting talks on garden subjects at a nominal fee. Dates should be arranged a month in advance.

NON WARRANTY

While we exercise the greatest possible care, we, like all other first-class houses, offer all goods subject to being unsold, and without warranty or responsibility for crop in any way and orders are accepted only under these conditions.

Handsome Hyacinths for House and Garden

Culture in Pots or Pans. These may be planted any time from September to November. Firm bulbs should be selected, and, if to be planted singly, use a 5-inch pot or four bulbs of one variety to an 8-inch seed pan. A piece of broken pot placed over the hole and 1 or 2 inches of Sphagnum Moss placed on this, makes excellent drainage. A light, rich soil is essential; one made up of one-third rotted cow manure, one-third rotted sod, and the balance of leafmold and sharp sand, is excellent. When planting, have the top of the bulb just below the soil, and the soil about an inch below the top of the pot; give a good watering, put in a cool place and cover with 5 or 6 inches of sand or sifted coal ashes. After eight weeks the roots should be strong enough to allow them to be brought to the light and into the room where they are to bloom.

Spanish and Dutch Bulbous Irises

Spanish and Dutch Irises, as well as several hybrid forms including Tingitana are excellent for growing under glass and may be grown in the garden also. When planted outdoors they should be covered with a heavy mulch and the bulbs planted in a well-drained border, about 5 inches deep.

Anton Mauve. Very popular, splendid Dutch Iris. It is a uniform soft blue, and the flower very large and substantial. Doz. 90c; 100 \$7.

Cajanus. Considered as being the finest uniform bright yellow Spanish Iris. Doz. 90c; 100 \$7.

Imperator. Popular for indoor growing. It is rich deep dark blue and a strong grower; a magnificent specimen when well grown. Doz. \$1; 100 \$8.

King of the Whites. The best pure white Spanish Iris. Doz. 75c; 100 \$5.

Thunderbolt. Beautiful dark bronze, golden blotch. One of the finest Spanish Irises. Doz. 85c; 100 \$6.

Tingitana. Similar to Imperator, but the flower is a shade lighter blue. It is excellent for pot culture; if well rooted and allowed to come gently, will flower indoors in March. Doz. \$1.75; 100 \$12.

GLADIOLI COLVILLEI

Fine for forcing; the spikes are very graceful and form splendid material for decorative work

Blushing Bride, white, flaked carmine pink. Doz. 75c; 100 \$6.

Peach Blossoms, rose blush, fine. Doz. 75c; 100 \$6.
